Sottili linee di luce flessibile.
Thin flexible lines of light.

ARCHETTO

Archetto è un nuovo linguaggio luminoso di grande leggerezza e di straordinaria versatilità applicativa. Raggi di luce che attraversano lo spazio, escono quasi per magia dal suolo o sono semplicemente appesi o appoggiati a minimali strutture, costruiscono inedite suggestioni. Protagonista il silicone che ingloba la luce del LED, per una tecnologia brevettata (Luxall), che ha consentito di realizzare un elemento luminoso sintetico declinabile in molteplici soluzioni. La collezione si sviluppa all'insegna della pulizia formale per offrire, nell'utilizzo, libere e personali interpretazioni applicative. Archetto è flessibile, elastico, strutturale, innovativo, versatile, creativo, ecologico, durevole.

A new language of great lightness and extraordinary versatility of application is created by Archetto.

Light rays pass through space, come magically from the ground or are simply hanging or placed in minimal metal structures, building novel suggestions. The protagonist is the silicone that incorporates LED light, a patented technology (byLuxall), which has allowed us to create a bright synthetic element declinable in multiple solutions.

The collection is developed in the name of clean lines to offers free personal interpretations and applications.

Archetto is flexible, elastic, structural, innovative, versatile, creative, ecological and long-lasting.

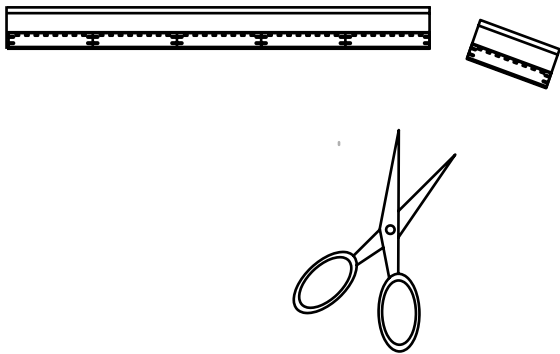

ARCHETTO

Twist
design Gianfranco Marabese 2015

Profilo di luce continua generata da un'estrusione in silicone al cui interno alloggia una strip LED.
Archetto Twist consente di realizzare linee curve o rette applicate in superficie o ad incasso.
Lunghezza massima profilo: 500 cm /taglio a misura ogni 5 cm
Strip LED bianco 3000/4000°K 500Lm C.A. al metro per entrambi.
Potenza 9.6W metro/24V/120 led per metro.
Profile of continuous light generated by an extrusion of silicone housing a LED strip.
Archetto Twist allows to realize curved or straight lines applied to the surface or recessed.
Maximum length of the profile: 500 cm /cutting to measure every 5 cm
LED strip white 3000/4000°K, 500Lm C.A. per meter for each one
Power 9.6W each Meter/24V/120 led per meter

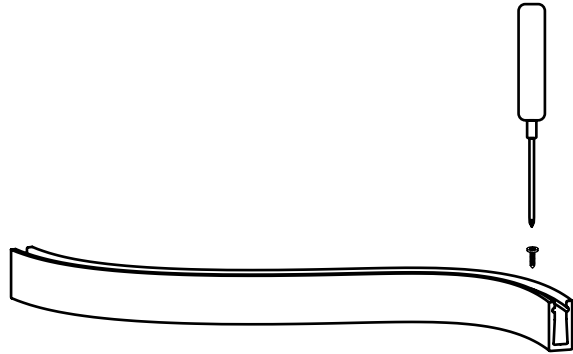

Montaggio/Mounting

1

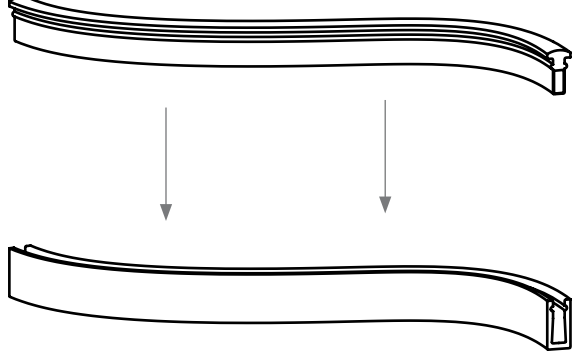

E' possibile tagliare Archetto Twist ogni 5cm/
It's possible to cut Archetto Twist every 5cm

2

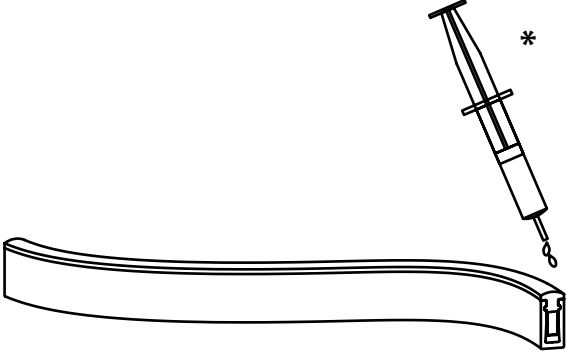

Fissare il supporto alla superficie/
Fix the support on the surface

3

Inserire il profilo luminoso sul supporto con leggera pressione/
Insert the lighting side into the support with a light pressure

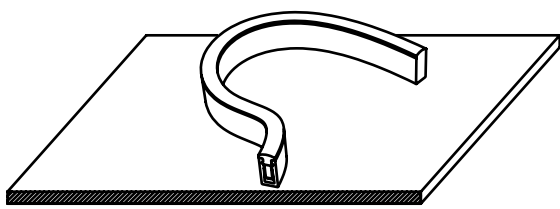

4

Sigillare le estremità con silicone speciale/
Seal the ends with a special silicone glue

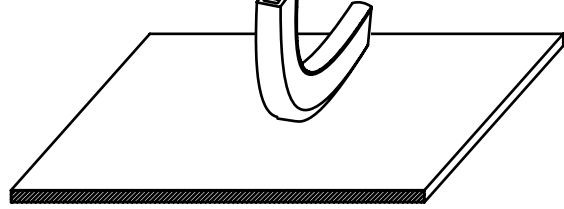

Applicazioni/Applications

YES

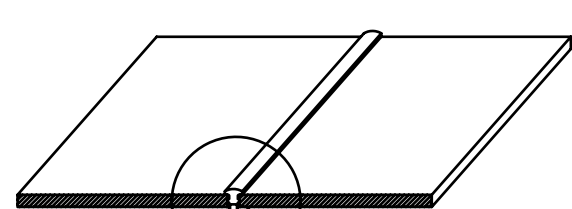

Piegare Archetto Twist tenendolo aderente alla superficie/
Bend Archetto Twist keeping it adherent to the surface

NO

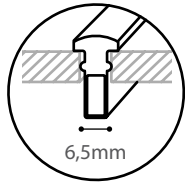

ATTENZIONE: non piegare Archetto Twist nel verso sbagliato/
WARNING: do not bend Archetto Twist over the wrong direction

Applicazione ad incasso/Inlay application

Inserire la parte luminosa in un taglio di larghezza max 6,5mm/
Insert the lighting side in a cut 6,5mm of width

Archetto Custom Indoor

ARCHETTO

Custom

design Theo Sogni 2012

Archetto Custom consente di ottenere soluzioni sartoriali di luce: linee di lunghezza variabile fino a 5 metri, particolarmente appropriate nella sottolineatura e nell'illuminazione, mai invasiva, di facciate, vetrine, percorsi di luce, installazioni.

Alimentazione: 24v.

Led bianco: 3000/4000°k, 120 led/mt, 500Lm/mt, 10W mt.

RGB: 120 led/mt, 20w/mt.

Sistemi di controllo: radio / infrarossi / DMX.

A partire da 100 cm si possono richiedere multipli di 5cm. I pezzi sono forniti a misura con cavo di alimentazione lungo 100cm in neoprene. Isola-

mento/protezione all'acqua IP67.

L min. 100cm - max. 500 cm

Archetto Custom allows to obtain lines of light with extensions dimensional variables up to 5 meters: tailoring solutions particularly appropriate in emphasis and lighting, facades, windows, light paths and installations.

Power: 24v

White led: 4000°k, 120 led/mt, 500Lm/mt, 10w/mt

RGB: 120 led/mt, 20w/mt

Control's system: radio / infrared / DMX.

From 100 cm you can ask multiple of 5 cm. The pieces are provided with suitable power cord 100 cm long neoprene. IP67 Waterproof.

Minimum length 100 cm – max 500 cm

Archetto Flexible si flette e permette di creare archi e curve, a luce diretta e indiretta, con dimensione finale variabile, dipendente dalla curva impressa. L'acciaio armonico 'coestruso' con il silicone, non mantiene la memoria della forma impressa, tornando sempre nella posizione originaria.

Archetto Flexible creates bright "arches" to direct and indirect light of variable sizes, dependent on the curvature you want to impart, for wall ceiling solutions. The spring steel coextruded with the silicone does not retain memory of the curve imprinted and always returns to its upright position.

CONTATTO

design Gianfranco Marabese 2015
engineeering Andrea Zandonà

Sistema d'illuminazione innovativo per ricerca e tecnica avanzate, che applica spot alle strutture, attraverso calamite, nelle versioni sospensione, parete, terra e incasso. Lo spot, a forma sferica, ruota all'interno di due metalli paralleli che fungono da contatto elettrico e da struttura. L'assenza di fili permette libertà di applicazione degli spot per quantità e posizionamento. L'uso di LED di ultima generazione e gli spot con frontale telescopico, creano coni di luce variabili da 20° a 40° di grande efficienza luminosa.

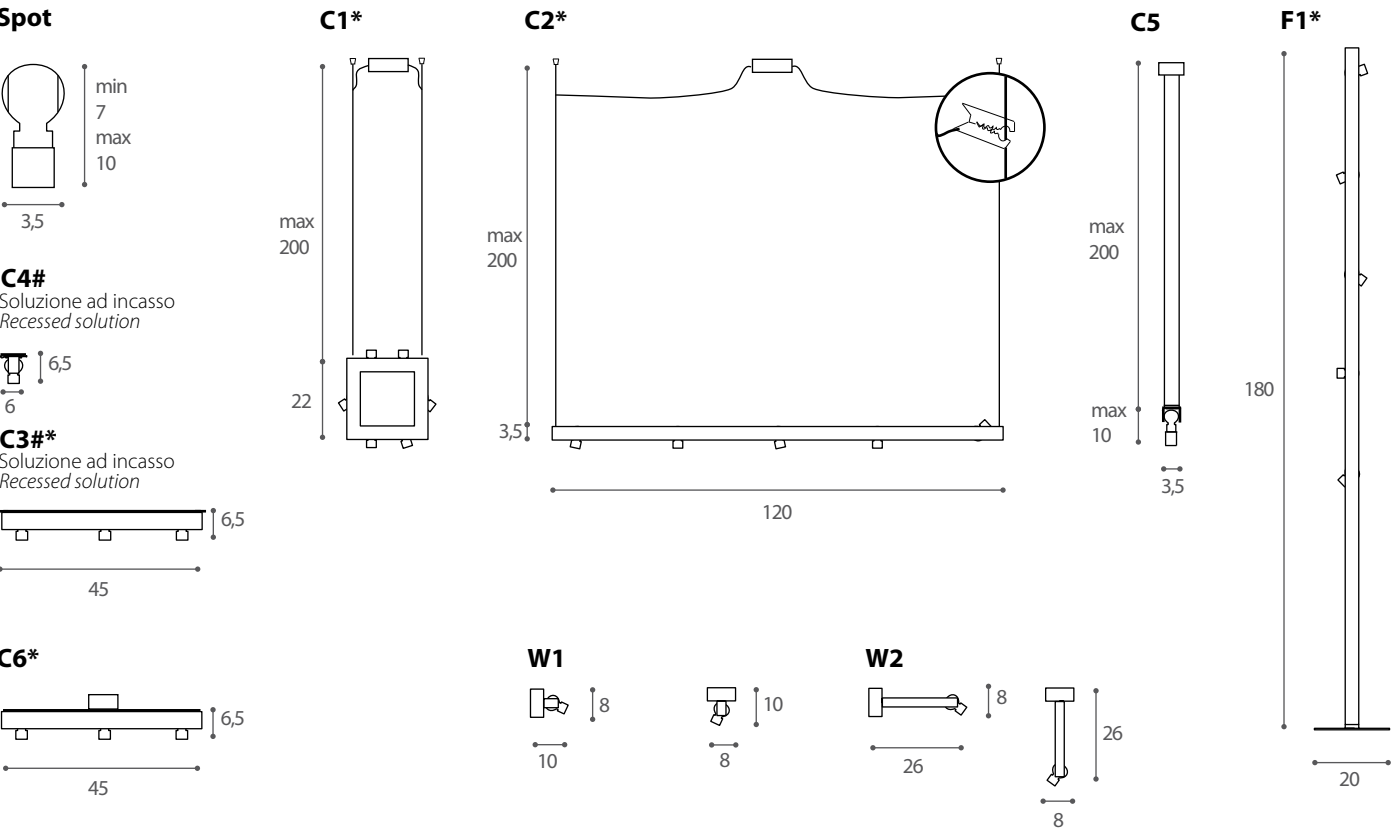

Materiali: metallo
Finiture: spot anodizzato nero o alluminio naturale, struttura verniciato nero opaco o bianco
Fonte luminosa: LED 4,2W 12V 3000°K

Innovative lighting system for research and advanced technical, which applies spot on the structures through magnets. Available as suspension, wall, floor and recessed versions. The spot, spherical, rotates inside two parallel metals which act as electrical contact and structure. The absence of wires allows freedom of application of the spots for quantity and positioning. The use of latest generation LED and the telescopic spots create a variable from 20° to 40° cones of lights with a high luminous efficiency.

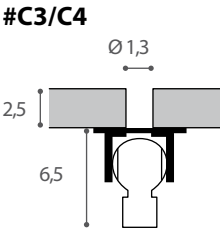

*Materials: metal.
Finishes: anodized black or natural aluminium spot, black or white mat painted structure.
Light source: LED 4,2W 12V 3000°K.*

* AGGIUNGERE GLI SPOT ALLE STRUTTURE MULTIPLE: C1, C2, F1, C3, C6

* ADD THE SPOTS TO THE MUTIPLE STRUCTURES: C1, C2, F1, C3, C6

Spot	LED 4,2W 12V 450lm 3000°K  min. 20°/ max 40°
C1	solo struttura per 6 spot, trasformatore incluso/ <i>only structure for max 6 spot, driver included</i>
C2	solo struttura per max 5 spot, trasformatore incluso/ <i>only structure for max 5 spot, driver included</i>

ARMONICA
design Theo Sogni 2010

ARMONICA

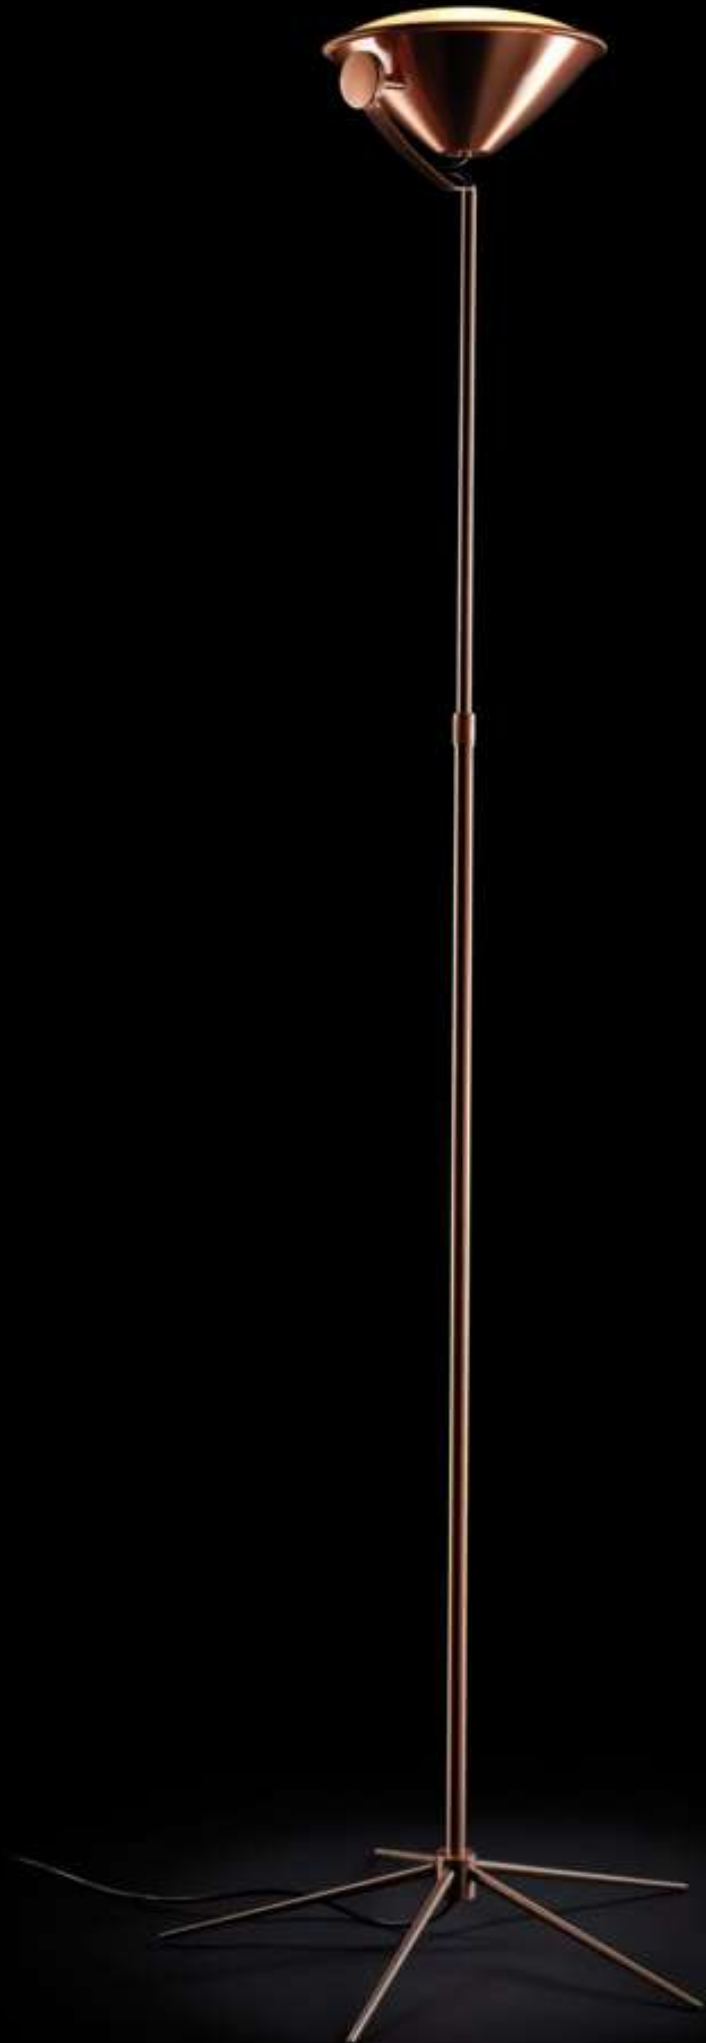

design Theo Sogni 2010

Armonica nasce da una ricerca progettuale orientate al recupero formale e stilistico dei tratti che hanno reso unico il design negli anni '70, con soluzioni e razionalizzazione d'uso innovativi. Si è ottenuta una lampada orientabile da terra, parete e soffitto, ad alta potenza luminosa, dai tratti armonici e forte identità: per ampi e differenti impieghi. Leggerezza, duttilità e facilità nella manutenzione sono ulteriori plus di Armonica. Materiali: metallo cromo, oro, rame satinato e vetro borosilicato

Armonica arises from a planning research aimed to the recovering the formal and stylistic treats that have made unique the design in 70's, with innovative solutions and use efficiency. We obtained an a djustable floor , wall and ceiling lamp, with high power, with harmonic line and strong identity for a large and different uses.
Lightness, flexibility and low maintenance are additional plus of Armonica.
Materials: chromed, gold and brushed copper metal and borosilicate glass

CINEMA'

design Theo Sogni 2014

CINEMA'

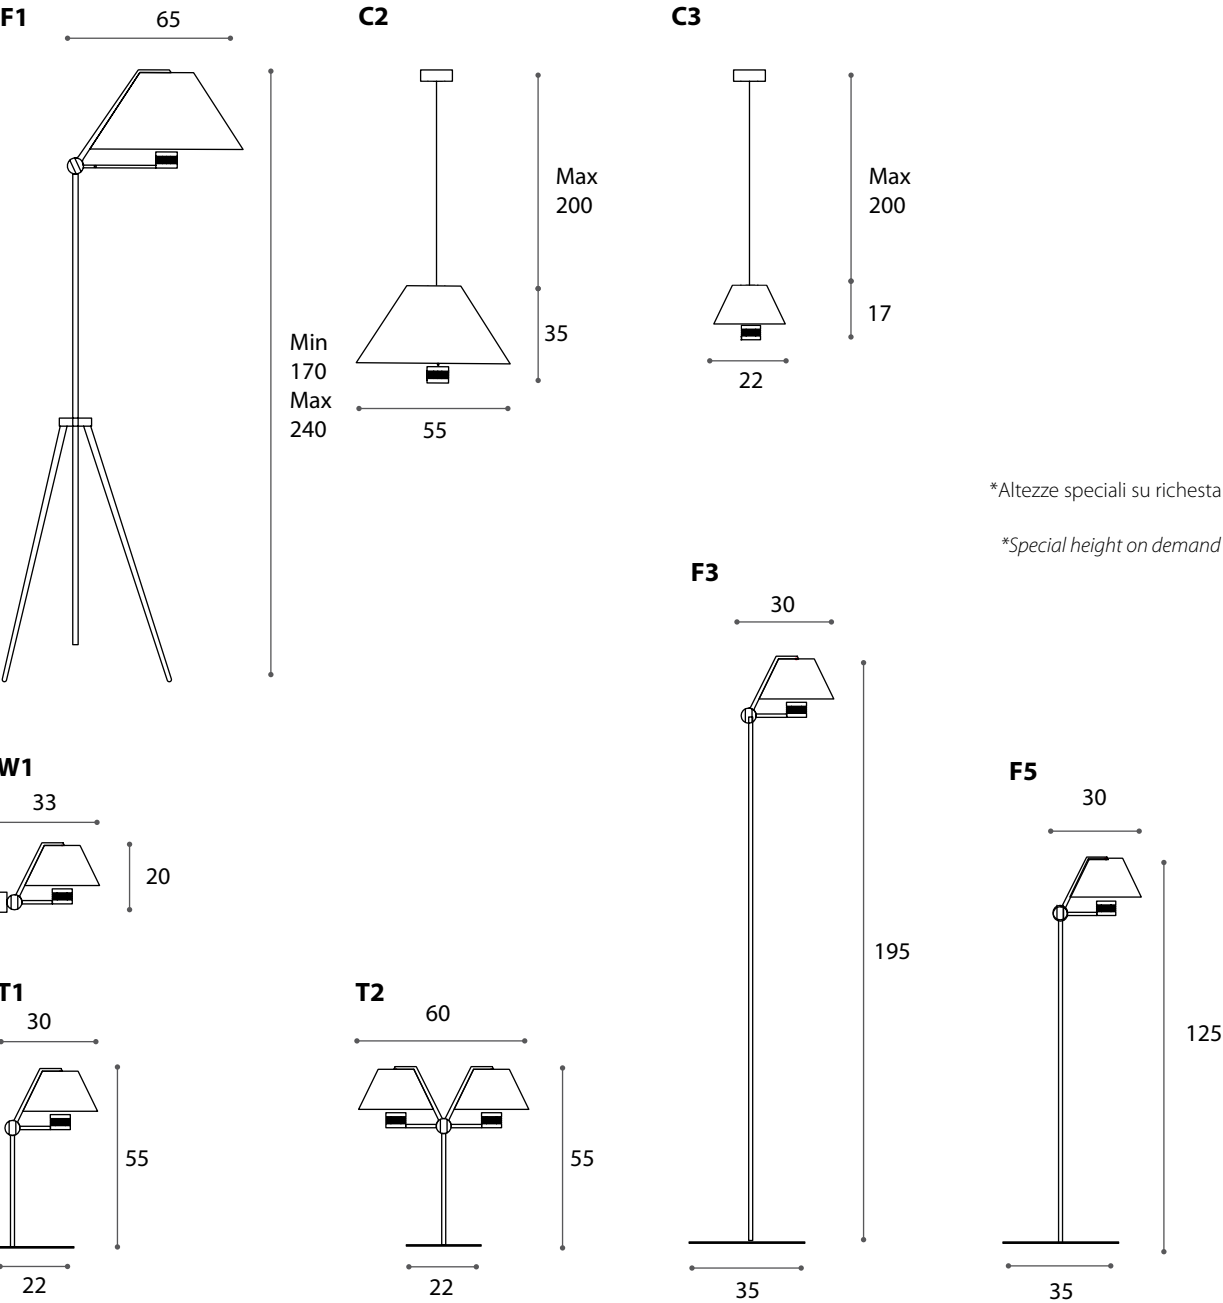

design Theo Sogni 2014

La collezione Cinemà si ispira alle lampade utilizzate nei set cinematografici. Proiettori LED illuminano l'interno dei diffusori che restituiscono luce riflessa senza abbagliare. Le versioni con l'interno in foglia oro generano una luce preziosa, calda e confortevole. I diffusori sono orientabili per direzionare la luce nel punto desiderato.

Materiali: metallo nero/interno foglia oro, bianco/interno foglia oro o bianco. Alluminio/interno alluminio. Bronzo/Foglia rame

The lamps which illuminate the film sets have inspired the collection Cinemà. LED headlamps illuminate the interior of the diffusers that return reflected light without glare. Some versions with the gold leaf inner part create a warm and comfortable light. The diffusers are adjustable to direct the light as desired.

Materials: black metal / gold leaf inner part, white / gold leaf or white inner part. Aluminum / aluminum inner part. Bronze/Copper leaf.

*Altezze speciali su richiesta
*Special height on demand

MAMAMIA

design Theo e Silvia Sogni 2003

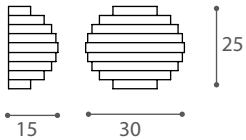

Progetto che riprende ed attualizza formalmente alcuni segni che hanno caratterizzato il design nordico, unendoli ad atmosfere luminose di sapore orientale. Nove anelli in metallo vengono montati su un telaio metallico a formare lampade da terra, parete, tavolo, sospensione e plafone. Dalla fonte luminosa, posizionata all'interno del volume, si irradia una luce netta e precisa che genera sulle superfici effetti e riflessi suggestivi. Finiture: bianco, alluminio, nero con interno alluminio,nero con interno rame, foglia oro, foglia argento e foglia rame.

The project take again and make formally actual some signs which characterize the Nordic design and combine them to luminous atmosphere with an oriental taste. Nine metal rings with different diameter was assembled on a metallic for floor, wall, table, suspension and ceiling versions . From the light source, which is situated inside the volume's lamp, radiates a clear light which creates suggestive effects and reflexes on the external surfaces of the rings.
Finitures: white, aluminium, black with aluminium inner part,black with copper inner part, gold, silver and copper leaf.

Unica è realizzata grazie all'utilizzo dell'antica tecnica della "fusione in terra": lavorazione generalmente adoperata dagli scultori per ottenere esemplari unici o multipli di opere in metallo come il bronzo, l'alluminio, il rame e l'ottone. La millenaria e artistica esecuzione, viene praticata da pochi artigiani che si tramandano il "mestiere" di padre in figlio, rinnovando la passione. Unica simboleggia con il proprio nome l'unicità della lavorazione, l'unicità dei pezzi, che sono singolari e diversi fra loro. Ogni colata infatti, sembra avere un proprio "DNA": dovuto ai segni sulle superfici della materia, che prelevata dal fuoco allo stato liquido, viene versata nel calco in terra per ottenerne la forma. Unica è numerata e prodotta in serie limitate.

Unica is realized by using the ancient technique of "sand casting": a process usually used by sculptors for individual pieces or multiple of works in metal such as bronze, aluminium, copper and brass. The ancient and artistic execution is carried out by a few artisans who hand down the "trades" from father to son renewing passion. Unica symbolizes with his name the uniqueness of the process, the uniqueness of the pieces, that are unique and different. In fact, each casting seems to have its own "DNA" due to the signs on the surface of the material, that taken from the fire in the liquid state, is poured into the mould in the ground to get the form. Unica is numbered and produced in limited quantities.

Una "colata" di luce unica e irripetibile, numerata.
A unique and unrepeatable "stream" of light, in limited edition.

NOVECENTO

design Claudio Bitetti 2009

Novecento mette a confronto una delle icone più significative del secolo scorso con una delle correnti artistiche più esemplari dello stesso. Abat-jour e Ready-made: l'oggetto e la sua trasformazione in qualcos'altro. Novecento nasce da un'ispirazione che raccoglie una tradizione e la trasforma con ironia.
Materiale: vasi in ceramica bianca e oro, diffusori in tessuto bianco e tecnopolimero oro. Struttura: metallo.

Novecento compares one of the most significant icons of the last century with one of the most considerable artistic current of the same one that are Abat-jour and Ready-made: the object and its transformation in something else. Novecento borrows from an inspiration that collects a tradition and transform it with irony. Material: white and gold ceramic pots, white fabric shades and gold technopolymer. Metal structure.

Curl the light to get an infinite variety of shapes.

DOLCEVITA

design Theo Sogni 2011

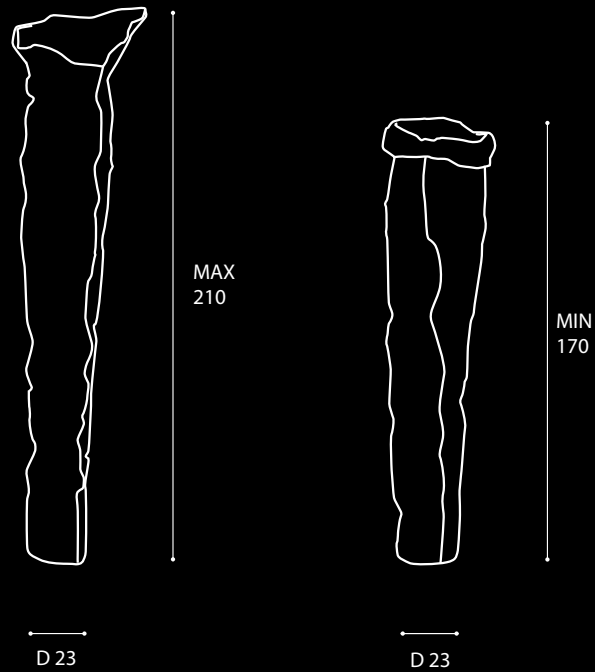

DOLCE VITA

design Theo Sogni 2011

Lampada da terra con diffusore in purissimo polietilene bianco, riciclabile, privo di sostanze tossiche e resistente all'acqua. Il materiale, brevettato e normalmente utilizzato in architettura da molti anni, protegge gli edifici da umidità e agenti atmosferici: con Dolcevita trova una nuova applicazione. La forma conica è in parte trasformabile attraverso la manipolazione libera, che consente di modellare, variare l'altezza (da 170 a 210 cm), e stropicciare la materia, ersonalizzando il "corpo" della lampada e il suo effetto luminoso. Leggero e consistente, il diffusore di Dolcevita , si illumina totalmente, filtrando una luce morbida, confortevole, mettendo in evidenza una texture materica che ricorda la carta di riso. Materiali: polietilene bianco Struttura: metallo e policarbonato Fonte luminosa: lampadine halo-spot di nuova generazione o LED

Floor lamp with pure white polyethylene shade, recyclable, free of toxic substances and water resistant. This material that has been patented and is normally used in construction field for many years to protect buildings from moisture and weather, finds with Dolcevita a new application. The conical shape is partly convertible by manipulating free that allows to model, to vary the height (from 170 to 210 cm), and to rubbing the material, customizing the "body" of the lamp and his lighting effect. Light and consisting, the Dolcevita's shade, lights completely and filters a soft, comfortable light that emphasizes the material texture reminiscent of the rice paper. Materials: White Polyethylene Structure: Metal and Polycarbonate Light source: new generation of light bulbs with low energy consumption or LED

MIAMI INDOOR

design Giordana Arcesilai 2010

La forma del diffusore di Miami rappresenta l'icona classica del paralume. Realizzato in vetroresina bianco caldo diffonde la luce morbida, accogliente e rassicurante.

Il materiale resistente all'urto e lavabile rende Miami utilizzabile ovunque e di facile manutenzione. Un cilindro di vetro borosilicato, all'interno del paralume, avvolge e scherma le fonti luminose per evitare abbagliamenti. Materiali: vetroresina bianco caldo e vetro borosilicato.

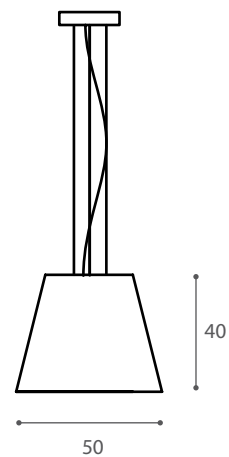

Miami's shade represents the classic icon of the lampshade. Realized in warm white fiberglass diffuses a soft, cosy and reassuring light.

The material has an high resistance to crashes and is washable for this reason Miami can be used everywhere and is easy to maintain.

A cylinder in borosilicate glass inside the shade surrounds and fancing the lighting sources to avoid glare.

Materials: warm white fiberglass and borosilicate glass.

RICAMI

design Theo e Silvia sogni 2009

Pizzo Valenciennne e fibra di vetro accoppiati, danno origine a superfici materiche bidimensionali. Il rilievo prezioso e la trasparenza del tessuto si uniscono all'alta resistenza agli urti e alle intemperie della fibra di vetro. Questa originale tecnica, ideata da Antonangeli, ha permesso di ottenere volumi illuminanti di diverse forme ed utilizzi: come i paralumi, in due dimensioni per lampade da terra, tavolo, sospensione. Materiale: fibra di vetro trasparente, pizzo Valenciennne bianco o nero, cilindro in vetro borosilicato. Struttura: verniciata bianca su pizzo bianco, bronzo ramato su pizzo nero. Oppure: i diffusori possono essere forniti senza pizzo.

Valenciennne lace and fiberglass used together to create bi-dimensional surfaces. The unique relief and the transparency of the fabric joined with the high resistance to crashes and to weather-beaten of the fiberglass. This original technique, created by Antonangeli, has permitted to obtain lighting volumes with different shapes and uses: as by the shades that are available in two dimensions to create floor, table and suspension lamps.

Material: transparent fiberglass, white or black Valenciennne lace, borosilicate glass cilinder. Structure: white painted for the white lace, bronze copper coloured for the black lace. Or the diffuser can be supplied without lace.

FLEX

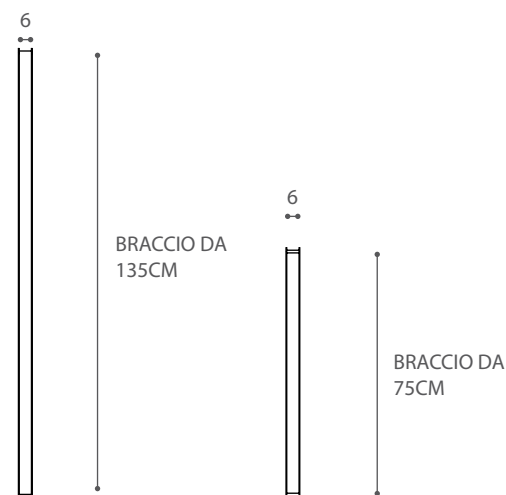

design Claudio Bitetti 2007

Flessibilità e astrazione sono i concetti che hanno portato alla realizzazione del progetto Flex: un sistema di luce dinamico che utilizza due bracci in due dimensioni, collegati tra loro attraverso uno snodo. Ruotabili a 180° i bracci permettono di illuminare spazi e cose secondo le necessità che mutano, anche quotidianamente. Flex è utile e duttile, un disegno essenziale che esalta la funzione della luce.

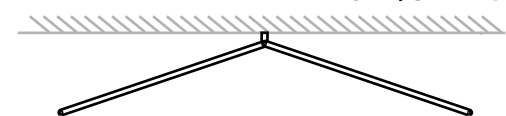

Struttura: verniciato bianco opaco, nero lucido

Flexibility and abstraction are the concepts that are on the base of Flex project: a dynamic light's system using two arms of two different dimensions joined together by a joint. The arms can be turned to 180° and this permits to light spaces and objects as per the mutable needs of every day. Flex is useful and ductile, an essential drawing that exalts the light's function.

Structure: white matt, black polish painted

Esempio di soluzione Custom /Example of Custom's solution

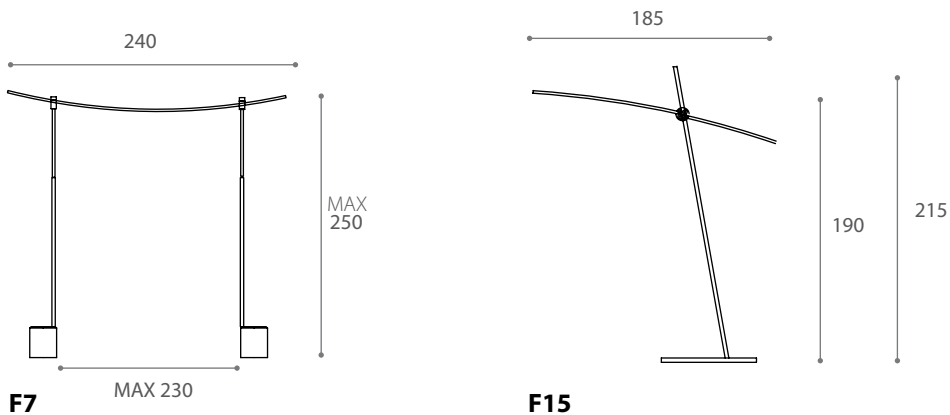

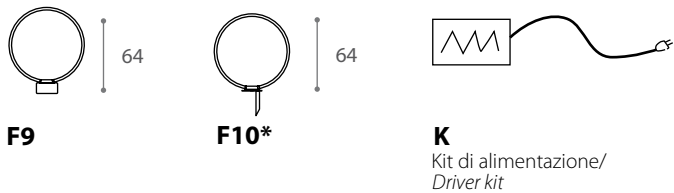

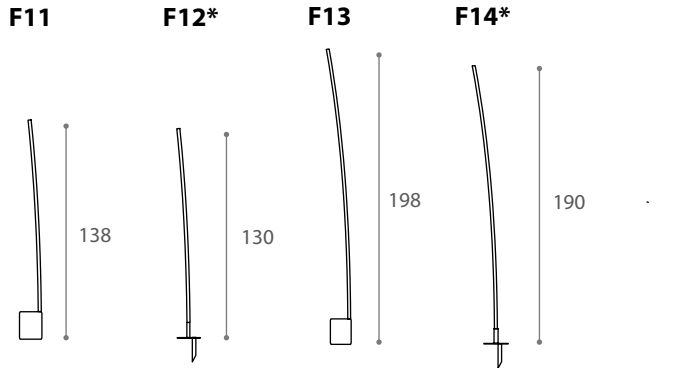

ARCHETTO

Shaped

design Theo Sogni 2013/2014

Con Archetto Shaped il silicone 'luminoso' diventa protagonista di sculture leggere: poetici oggetti di luce per molteplici soluzioni da terra con base e a picchetto.
Basi in cemento o pietra lavica.
Steli in alluminio anodizzato.
Alimentazione: 24v
Led bianco: 4000°k, 28w/mt, 240 led/mt, 1030Lm/mt
RGB: 120 Led/mt, 20w/mt.
Sistemi di controllo: radio / infrarossi / DMX.
Driver remoto

Also by the outdoor version, the thin line of light develops through proposal represented by classical geometric shapes, icons that emphasize cleaning and lightness of the lighting design.
The silicone "bright" protagonist of light sculptures, which are enriched by the metal, stone or cement, involved with cleaning and formal rigor to generate poetic objects of light – for multiple floor solutions with base and with the picket.
Concrete or lava stone bases.
Chrome anodized aluminium rods. Power: 24v.
White led: 4000°k, 28w/mt, 240 led/mt, 1030Lm/mt.
RGB: 120 Led/mt 20w/mt. .
Control's systems: radio / infrared / DMX.
Remote driver

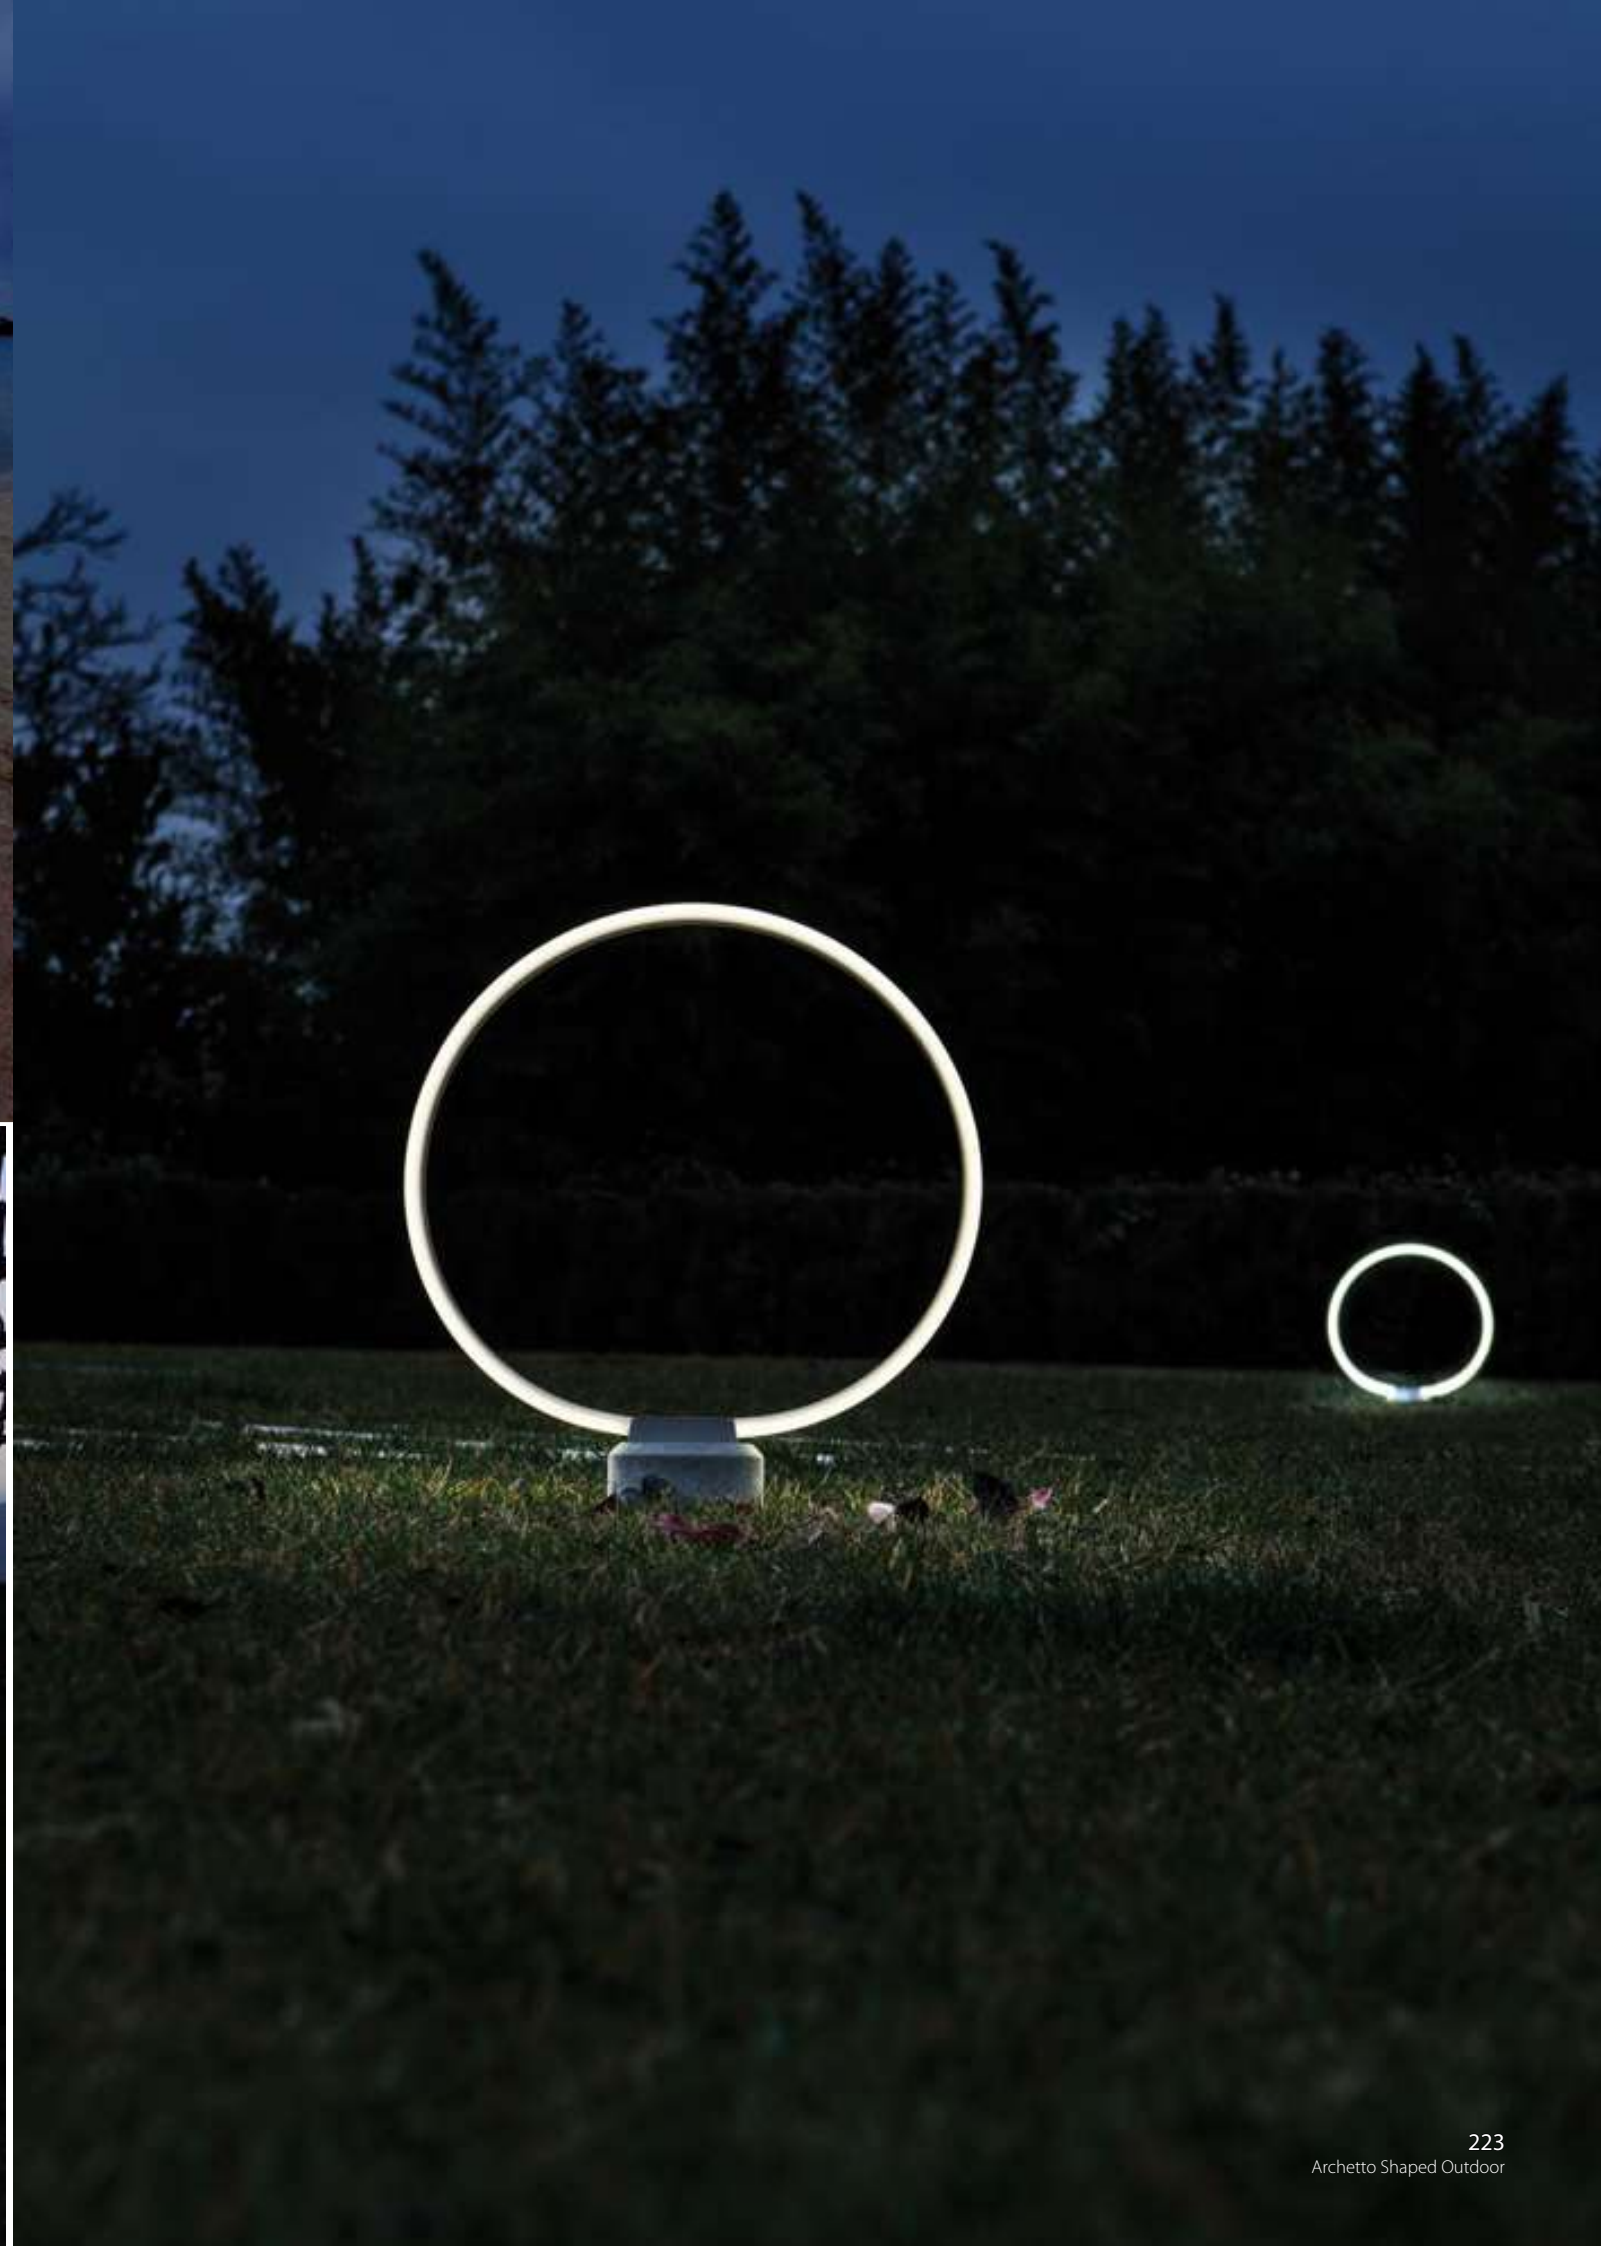

Tutti i modelli sono forniti senza alimentatori, i quali possono essere forniti su richiesta/

POLLICINO

design Giordana Arcesilai 2007

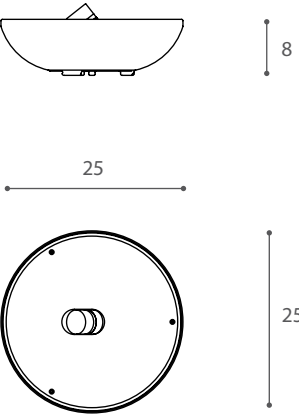

POLLICINO

design Giordana Arcesilai 2007

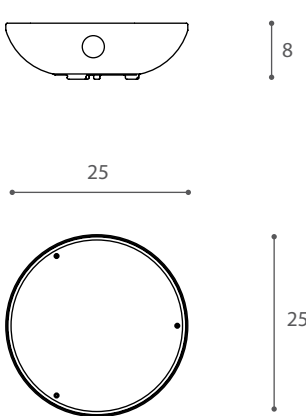

Pollicino nasce come segna-passo e luce d'accento orientabile per evidenziare alberi, sculture, architetture. Non deve essere incassato nel terreno, solo appoggiato e utilizzato singolarmente o collegato in sequenza, in modo facile e sicuro. L'installazione non fissa consente di variare l'illuminazione a seconda delle necessità. Può essere impiegato anche in interno, come luce di cortesia per la notte o di accento per le piante domestiche. Struttura: fusione in alluminio naturale o verniciato bronzo, chiusura superiore in metacrilato bianco. Spot a doppio Led bianco/bianco, blu/blu, bianco/blu, bianco/ambra, ambra/ambra.

Pollicino borns to be used as steps' sign and as swinging lamp to emphasize trees, sculptures, architectures. You have only to put it on the floor without setting it and can be use singularly or joined in sequence in a easy and safe way. The movable installation permits to change the lighting as per your needs. Can be used also on the inside as courtesy light by night or as lighting accent by the indoor plants. Structure: natural aluminium fusion or bronze painted, upper cover shade in white metacrylic. Double LED white/white, blue/blue, white/blue, white/ambre, ambre/ambre.

I-SNAP

industrializzazione Davide Cavalli 2007

Leggera lampada costituita da una fonte luminosa a LED e da una asta in rame duttile che permette di direzionare la luce ed ottenere gli effetti luminosi desiderati.

Utilizzabile singolarmente o in aggregato per esilità visiva e dimensioni della fonte luminosa, è una illuminazione ideale per piante in vaso o cespugli. Il rame non trattato e duttile, consente nel tempo un'integrazione formale e visiva con i rami delle piante e una ancor più compatibilità della fonte luminosa con il paesaggio.

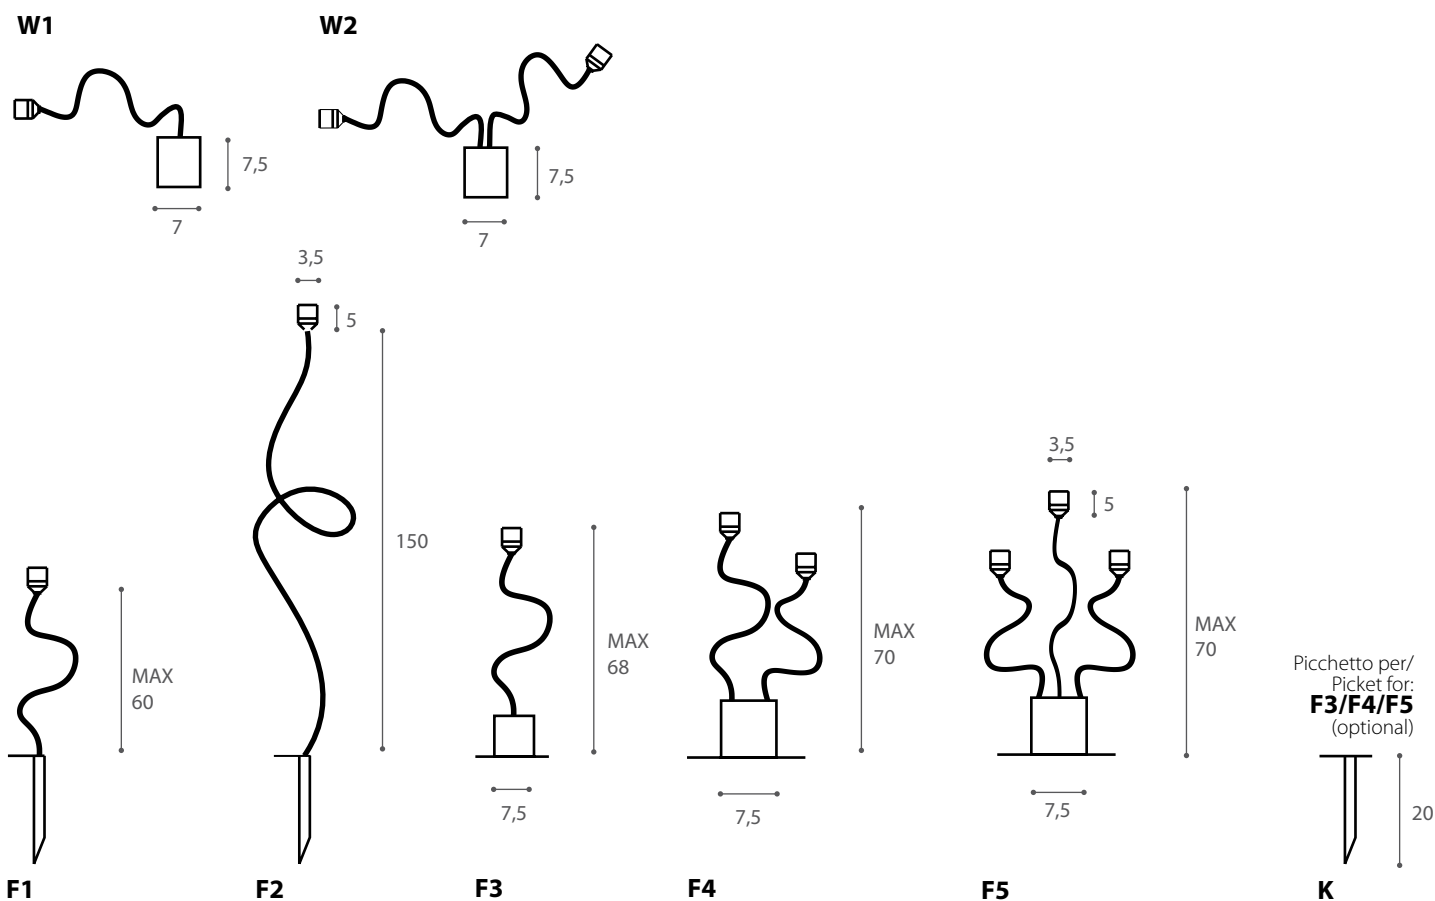

Struttura: asta in rame duttile a picchetto alta 60 e 150 cm.; le versioni da parete e sospensione sono disponibili cromo satinato o rame con attacchi bronzo.

LED bianco, blu o ambra.

Light lamp powered by LED and formed by a copper adjustable rod that permits to direct the light as you want creating the desired lighting effects. To be used singularly or together with other elements. Its slightrness and its bulb's dimensions permit to use and to camouflage it into flower pots or into bushes. The copper is not processed and permits with the passing of time to camouflage it through the tree's branches permitting a perfect fitting of the light source inside the landscape.

Structure: copper ductile picket rod to 60 and 150 cm. height.; wool and suspension versions are available satined crome or copper with bronzed hook.

LED available in white, blue or ambre.

MIAMI

design Giordana Arcesilai 2007

Miami porta all'esterno l'atmosfera della luce degli interni: è un paralume che diffonde una luce calda e accogliente. Il disegno essenziale della struttura, esalta il diffusore in vetroresina bianco naturale, pensato e prodotto per essere resistente alle intemperie e agli sbalzi di calore. Miami è disponibile da terra, su ruote, fissa, a picchetto, a sospensione con un semplice e comodo gancio di fissaggio, a parete. Struttura acciaio satinato, base in pietra. Diffusore: vetroresina bianco caldo, diametro 30 cm o 50cm.

Miami is a project that born from the will to propose to the public an outdoor lighting fixture of a big dimensions to bringht outside the atmosphere of the indoor lighting. Decisive is the choice of the lamp shade as light shade. The essential and linear structure's drawing emphasise the white resin glass shade, planed and produced to be waterproof. shade. Miami is available as floor version, on a picket structure or on a stone base with wheels and also without wheels, as suspension lamp with a simple fixing hook, and wall.
Satined inox structure,stone base
Shade: resin glass warm white with a diameter to 30 cm or 50 cm.
